STAT

PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 13 APRIL 1983

1. <u>Progress Report on Tasks Assigned by the DCI/DDCI</u>:

No tasks assigned during this reporting period.

2. <u>Items or Events of Major Interest that have Occurred
During the Preceding Week</u>:

a. <u>LIMS</u>

(1) On 12 <u>April the LIMS Source</u> Selection Board unani-
mously recommended [   ] be selected as the LIMS   STAT
development contractor. This recommendation will be presented to
the Source Selection Authority for approval.

(2) [   ] Supply careerist with the System   STAT
Development Group, has issued a preliminary draft of a LIMS data
element dictionary. Now containing about 400 definitions and
expected to reach 800, this listing will be used by the develop-
ment contractor in building the new system. This dictionary is
important to OL and OF in that it will become a common reference
for all users of the system. This document, when completed, will
provide a first ever compilation of common terms and their
definitions.

(3) [   ] about to depart from the SDG for   STAT
the CAMS project, will present his final overview (and changes)
to the Catalog Module this AM. [   ] has been on the LIMS   STAT
project for more than two years.

b. <u>Regulation Revisions</u>

The following regulations were reviewed, commented upon,
concurred in, or published during the past week:

[   ] <u>Records Management</u> - Concurred, provided the   STAT
statement that Records Management Division, OIS, will establish
automated procedures for the various registries throughout the
Agency is changed to read that OIS will <u>monitor</u> (or coordinate
or oversee), the automation procedures of each registry. Our
registry believes that it should have more freedom to develop
whatever automated procedures work, but without being told by
OIS. OC has made the same condition on its concurrence.

[   ] <u>Security Clearances and Approvals</u> and <u>HR</u>   STAT
<u>Special Clearances and Access Approvals</u> - Concurred.

[   ] <u>Supply Operations</u> - In response to recommen-   STAT
dations from Records Management Division, OIS, we submitted to
OIS/RCD some modifications to our "in-the-mill" revision of this
regulation. [   ]   STAT

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 4 to 8 April 1983

I.   Major Activities During the Past Week:

A. Support to OL:

    FARS (Federal Automated Requisitioning System). A meeting
was held on 5 April to discuss prioritizing of FARS problem
reports and other issues relating to FARS. In attendence were
           of Data Control   STAT
Branch/SD/OL, and   of Systems
Analysis Branch/P&PS/OL.

    CONIF (Contract Information System). Modifications to files
and dictionaries included in the retirement process have been
completed. These modifications were necessary due to the addition
of the new LINE/DETAIL data in the CONIF data base.
Additions/changes were made to the CON/RET GIM II procedure (used
to select the contracts to be retired to the offline data base),
the RETDISK and RETLOAD JCL files, the LINE/DETAIL, CONTRACT and
RET/CN GIM II dictionaries and the CONIFHD GIM II data file which
contains GIMS statements necessary to carry out the retirement
process (extract and bulk change statements, selection statements STAT
etc.)

II.   General Items:

A. Support to OL:

    TRAINING.   completed the EXEC2 Language   STAT
Course at   on 4-6 April.

III.   Problems:

                        STAT

    None to report.

IV.   Upcoming Events:

    None to report.

                        STAT

              Acting Chief
